

WE NEED YOU

CONNECTING WITH CANYONS SCHOOL DISTRICT

It starts with a question. How do you register for school? Where is the neighborhood stop for the school bus? What time does school start? In Canyons District, we work hard to not only inform our community but to listen to suggestions, engage in dialogues, and respond to concerns. We view our patrons as valuable partners and allies. We prioritize working together to help students succeed. We also regularly review our processes to improve our community engagement and customer service.

CONNECTING OUR COMMUNITY

PUBLIC MEETINGS

Open Board of Education and Town Hall meetings

VOLUNTEER AND COMMUNITY PARTNERSHIPS

Regular meetings with business partners, PTAs and School Community Councils

PARENT, STUDENT AND EMPLOYEE SURVEYS

Annual school climate and satisfaction surveys

NEWS ALERTS & PARENT NOTIFICATIONS

HOW TO CONNECT WITH US

Of all the factors that determine student success, parental involvement is among the most important. Whatever your level of involvement, our job as a District is to remove barriers and make it as easy as possible.

9 WAYS TO GET INVOLVED IN SCHOOL

- 1. Get to Know Our Teachers**
It's not just your child who wants to hear a job is "well done." Feedback also is important for teachers to know what's working, or how they can better meet your child's needs.
- 2. Monitor Canvas, Skyward**
This is where you'll find assignments, and attendance records, test scores, and grades.
- 3. Volunteer or Donate**
Learn how at the Canyons Education Foundation.
- 4. Participate**
Board of Education and budget meetings are livestreamed and agendas are published online. Patrons can sign up to give input.
- 5. Visit School and District Websites**
Here you'll find calendars, bell schedules and important news.
- 6. Subscribe**
Stay in the know by subscribing to our podcast and news feeds.
- 7. Weigh in on Curricular Decisions**
Patrons are invited to review and give input on new textbooks and software prior to the adoption of any new curriculum.
- 8. Download SafeUT**
Sign up for our confidential crisis and safety tip line.
- 9. Email or Call**
Live operators are at the ready at the District during business hours to answer questions by email at communications@canyonsdistrict.org or by phone at 801-826-5000.

WHO TO CALL WITH QUESTIONS, FEEDBACK

TEACHER

It all starts with the teacher. Most questions or concerns you have about your student, the classroom, or the curriculum can easily be addressed by your teacher.

ASSISTANT PRINCIPAL

The next step would be to approach your child's Assistant Principal. In middle school, most students are assigned to an administrator by grade level. In high school, students are assigned an administrator alphabetically, based on the student's last name. In most elementary schools, the person to call at this point would be the principal.

PRINCIPAL

If you find you still need assistance, call your child's principal.

NOTIFY DISTRICT

Your next recourse is to notify District leadership. Just call 801-826-5000 and ask for the School Performance Director who supervises your child's school.

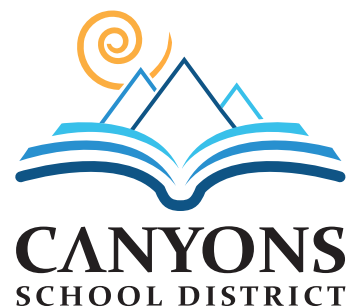

YOUR BACKSTOP

The District's highest-ranked administrator is the Superintendent. At any point, you can contact the Superintendent or your elected representative on the Canyons Board of Education.

IN A PINCH

Live operators are on standby at the District to answer questions by email, communications@canyonsdistrict.org or phone, 801-826-5000.

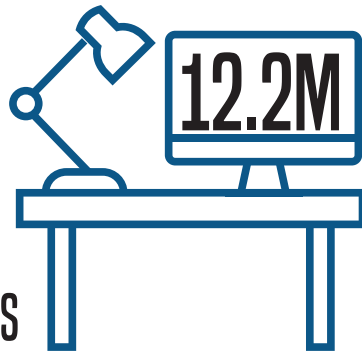

BY THE NUMBERS

During the COVID-19 pandemic we found strength in community. Parents needed timely and trustworthy information to make the best educational choices for their families, and schools needed parental feedback to bridge the physical distance with students and keep their connection to learning strong. Renewed community ties — as evidenced by the data points below — have translated to even greater trust and engagement.
